

Ines Varga

PROFILE

Backend engineer · Rotterdam, NL · ines@example.com

I work on the parts of a product that have to be right: billing runs, queue pipelines and the integrations with other people's APIs. Seven years of Laravel.

■ Open to senior backend roles from December 2026.

EXPERIENCE

MAR 2023 – NOW

Senior backend engineer · Havenlijn Logistics

- Replaced a nightly CSV import with webhook-driven sync; invoice disputes fell from ~40 to ~6 a month.
- Led the move from a self-managed queue box to managed queues with no dropped jobs.
- Mentor two junior engineers; wrote the team's incident review template.

JUN 2020 – FEB 2023

Full-stack developer · Kliniekplan

- Rebuilt the booking flow in Inertia and React; median time-to-book went from 3m10s to 1m05s.
- Introduced Pest and brought the test suite from 0 to 1,400 tests.

SEP 2016 – AUG 2018

Developer · Nyomda Print

- Built the order-intake system still used to price and schedule jobs.

SKILLS

PHP, TypeScript, SQL, Go · Laravel, Inertia, React, Pest · MySQL, Postgres, Redis, Laravel Cloud, AWS SQS

EDUCATION

BSc Computer Science · University of Szeged, 2012 – 2016
